COMPANY OVERVIEW

Geras Industries is a service-connected disabled veteran-owned small business based in Vail, Arizona (SDVOSB / VOSB certification application under SBA review). We work with federal civilian agencies — HHS, VA, GSA — and Arizona state and local government buyers on logistics, facilities support, and procurement work. Founder Jon Rosario is a U.S. Army veteran with over a decade in production test engineering and quality systems in advanced manufacturing, and he runs Geras the same way: clear processes, straight answers, and follow-through.

CORE COMPETENCIES

- **Logistics & Supply Chain Consulting**
We map how goods and materials move, find where things slow down, and fix it — for federal civilian and state/local programs.
- **Facilities Support & Operations Management**
Hands-on facilities management and readiness reviews, built around how federal facilities actually run day to day.
- **Vendor Coordination & Procurement Support**
We connect vendors with the government buyers who need them, and handle the paperwork that gets deals across the line.

DIFFERENTIATORS

- Over 10 years in production test engineering and quality systems
- Active registrations with SAM.gov, Arizona's state procurement portal, Pima County, and the City of Tucson
- SDVOSB / VOSB set-aside eligibility once SBA certification is granted — priority consideration in federal and state set-asides
- Know the FAR and the paperwork that comes with it, firsthand
- Small and lean — lower overhead means competitive pricing and fast turnaround

CONTRACT VEHICLES & REACH

We can bid on open-market federal civilian work nationwide, and we're registered for Arizona state contracts plus local work in Pima County and Tucson. Looking to team as prime or sub on task orders and simplified acquisitions in the \$10K–\$250K range — logistics, facilities support, and procurement liaison work.
